

Information Technology Cooperative

Building Shared Vision

What is IT Coop?

Information Technology Cooperative or IT Coop is a socially responsible service provider that fosters technological innovation and excellence for the benefit of humanity. It is a cohesive cooperative of socially responsible, talented and skilled information technology professionals dedicated to serve Information and communication technology requirements of socially responsible enterprises, cooperatives, non-government organizations and private individuals who promote solidarity “Bayanihan” economy.

Vision

A transformed nation which social enterprises are visible and accessible in various communication and information media, driven by God-fearing Filipinos whose minds are set to use and develop their skills and knowledge in order to effect positive change to various pillars of society for the promotion of solidarity economy.

Mission

To support social enterprises by utilizing current trends, developing solutions and providing expertise and consultancy that technologically connects their products, services and advocacies to the growing online population.
